DEVIN HITE

DevinMHite@gmail.com • https://www.linkedin.com/in/devin-hite/ • https://devinhite.com/

Life-long student with a scientific background and a specialization in Earth Science and Astronomy which has honed my skills in problem solving, statistics, data analysis, critical thinking, and time and project management. General Assembly Immersive Data Science Program graduate with improved skills in Data Analysis and visual modelling. Passionate for working with numbers and technology, and many years of experience in roles that have required exceptional interpersonal communication skills. Excited to incorporate my skills into the technical field.

SKILLS

- Team management and collaboration, continuous expansion on learning and understanding roles, teaching new colleagues the same responsibilities that live up to standards of expectation
- Python, SQL, Regression and logistic prediction models, binary and multiclass classification, natural language processing

PROJECTS

- Reddit NLP classifying model
- Major League Soccer salary predictor model
- English Premier League home-field advantage statistics and predictor

EXPERIENCE

12/2021 - 3/2022

DATA SCIENCE FELLOW, GENERAL ASSEMBLY (AUSTIN)

- Applied statistical methods to gather, clean, and analyze large datasets using Python, SQL, Tableau, Amazon Web Services, and other tools. Worked regularly with the following Python libraries: sklearn, pandas, numpy, ntlk, re, tensorflow, keras, statsmodels, scipy, beautiful soup, and matplotlib.
- Completed 480+ hour immersive course in python programming and data science techniques including data visualization, statistical methods, machine learning algorithms for regression and classification, neural networks, and webscraping.

04/2017 – 01/2021

OFFICE MANAGER, STUBHUB INC. (SAN FRANCISCO)

- Provided excellent service to the clients and its associates, including customer needs assessment, meeting quality standard reviews and customer satisfaction evaluations.
- Operated in a professional and business-centered environment where interpersonal relations, confidentiality, and integrity are held to a high standard.
- Proactively improved company-wide logistics including customer-company relations.
- Assisted the change of medium of company-wide communication resulting in increased efficiency.

10/2016 – 4/2017

FACILITIES COORDINATOR, STUBHUB INC. (SAN FRANCISCO)

- Managed daily operations including interpersonal interactions, handling of valuable materials, interaction with high-value clients.
- Prepared and processed outbound shipments using computers or service provider's equipment.
- Trained new team members within department to be able to commit to high standard of operations.

EDUCATION

DATA SCIENCE, DATA SCIENCE IMMERSIVE REMOTE – 480 HOURS

EARTH SCIENCE, SAN FRANCISCO STATE UNIVERSITY

- Fields of research: Astronomy, Environmental Science
- Course load: Calculus (I, II, III), Physics, Geology, Meteorology, Forecasting
